TECHNOLOGY REVIEW & SEMINAR-II

1. The seminar shall have three components, two chosen by the student from the course-work without repetition, from the topics taught / studied, and approved by the faculty advisor.
2. The other component is suggested by the advisor and can be a reproduction of the concept in any standard research paper or an extension of concept from earlier course work.
3. A hard copy of the information on seminar topic in the form of a report is to be submitted for evaluation along with presentation.
4. The presentation of the seminar topics shall be made before a committee comprising the Head, seminar advisor and a senior faculty of the department.
5. The three components of the seminar are distributed as three sessions of the semester and are evaluated for 60 marks each.
6. The sum of the two components shall be taken as the final score (Max 100). A minimum of 50% of maximum marks shall be obtained to earn the corresponding credits.
